

The Influence of Social Media, WikiLeaks & Whistleblowers Upon The Future of IT Auditing: An Introductory Landscape

Pw Carey, Consultant Compliance Partners, LLC

Governance, Risk and Compliance Track – Session G32

Session Abstract

Consider this a high-level overview (based upon case studies) of the impact Social Media, WikiLeaks, and Whistleblowers are having upon IT Auditing, concluding with what happens when an IT Auditor fails to appreciate the tangential influence of Social Media, WikiLeaks and Whistleblowers. This is what you will learn:

Part 1 (G32) Social Media:

The impact of Social Media on the workplace (privacy & security). Define and discuss objectives, risks, and controls and discuss the relationships between various control strategies.

Part 2 (G32) WikiLeaks:

The influence of WikiLeaks on the workplace (privacy & security). Define and discuss objectives, risks, and controls and discuss the relationship between various control strategies.

Part 3 (G32) Whistleblowers:

The growing impact whistleblowers are having on the workplace (privacy & security). Define and discuss objectives, risks, and controls and discuss the relationship between various control strategies.

Target Audience

Anyone interested in gaining a better understanding of the impact upon privacy and security which Social Media, WikiLeaks and Whistleblowers are pressing upon today's workplace and what tools are available to assist the IT Auditor in the field, (e.g.: CobiT 4.1, ITIL Ver. 3, and ISO/IEC 27002).

COBIT Objectives

This course will address the alignment and mapping of CobiT 4.1 control objectives within the following areas: AI 1-4, AI 6-7, DS 3-5, DS 8-13, ME 1-2, PO 1-3, PO 5-6, and PO 8-10.

Speaker Bio

Pw has many years of experience in SW/HW development (commercial & DoD) and since 2003 Pw has served as a Consultant for Compliance Partners, LLC specializing in SAP GRC for the Life Sciences. His most memorable achievements to date were saving Donald Valentine's life at an Entrepreneurs Dinner in Silicon Valley, being half way down a tunnel before wondering if it really was just a slow fuse and the 3rd is just too silly to mention.
